

THE NANO MODEL

The **nano** combines all the great features AIRSCREEN users know and love but is also as portable as never before. Weighing just 44b (20kg), the AIRSCREEN nano, is the perfect outdoor screen solution for garden parties, backyard cinema events and anything in between. The screen is an ideal size for up to 100 viewers and inflates in just 60 seconds.

COMPONENTS

- ▶ AIRSCREEN nano
 - ▶ Inflatable frame
 - ▶ Front or rear projection screen
 - ▶ Screen ties
 - ▶ Adjustable nylon tethers
 - ▶ Handheld blower
 - ▶ 2 year warranty
- ▶ Including all necessary equipment and manual

- Ideal for everyone who wants to set-up a small cinema easily & quickly!**
- + Compact and lightweight
 - + Super easy set-up
 - + Yet impressive screen size

Wrinkle free 16:9 screen surface with black backside - no disturbing backlight!

Airtight framework - no permanent inflation needed!

Compact and lightweight when deflated - yet surprisingly big when inflated!

THE AIRTIGHT MODELS

The **airtight** models are available from 16ft (4.88m) to 24ft (7.32m) screen width and are built in a way that they do not require a blower during screen operation. The big advantage of this construction is the zero noise emitting operation of the screen e.g. for small audiences or indoor purposes. If some day a hole develops, a patented controlled blower box (optional) keeps your screen perfectly inflated when needed and switches off automatically once the pressure is right again.

COMPONENTS

- ▶ AIRSCREEN airtight
- ▶ Inflatable frame
- ▶ Front or rear projection screen
- ▶ Screen ties
- ▶ Adjustable nylon tethers
- ▶ Handheld blower
- ▶ 2 year warranty
- ▶ Including all necessary equipment and manual

Ideal for medium sized audiences in sensitive environments!
+ No noise at all
+ Ideal for indoor use
+ Swims on water

Wrinkle free 16:9 screen surface with black backside - no disturbing backlight!

Ultra-solid frame due to hf-welding - craftsmanship made in Germany!

Airtight framework - no permanent inflation needed!

THE CLASSIC MODELS

The **classic** model range covers sizes from 20ft (6.10m) all the way up to 52ft (16m) screen width. Permanent high pressure inflation and precise engineering result in a product which never let you down. Moreover it is designed to give you a number of options to adopt to different circumstances e.g. blower attachment points on both sides of the frame.

COMPONENTS

- ▶ AIRSCREEN classic
 - ▶ Inflatable frame
 - ▶ Front or rear projection screen
 - ▶ Screen ties
 - ▶ Adjustable nylon tethers
 - ▶ Permanently running blower
 - ▶ 2 year warranty
- ▶ Including all necessary equipment and manual

For constant users who seek for the most reliable screening solution for different kind of uses!

+ Extremely durable

+ Rapid inflation and deflation

+ Remains upright even with minor punctures

Wrinkle free 2:1 screen surface with black backside - no disturbing backlight!

Ultra-solid frame due to hf-welding and reinforced details - this frame will never let you down!

Permanent inflation by high pressure blower - rapid inflation and flawless performance!
