

AIRSCREEN

THE ORIGINAL IS BACK

WITH OUR DRIVE-IN CINEMA SYSTEMS

AIRSCREEN classic 100ft x 60ft (30m x 18m)

YOU CAN'T BEAT THE CLASSIC

The complete drive-in cinema systems by AIRSCREEN enable you to create the nostalgic cinema experience everyone knows but has not yet been able to experience. As with all complete cinema systems by AIRSCREEN they combine everything you need including screen, projection and sound.

Our inflatable movie screen is the ideal screening solution as it can be set up practically everywhere within a very short amount of time. The projectors included give you a bright Full HD picture with the best value for money. For the true drive-in experience a FM transmitter is used to convert the audio signal to a UHF signal which can then be heard through each individual car radio.

Choose your complete drive-in cinema package and offer this outstanding version of pop-up cinema.

A 7.32m / 24ft drive-in cinema fits in a box

Ever thought about a boat-in or a fly-in cinema?

FM transmitter for the original drive-in sound
